## Scope & Content Note

---

This collection consists of materials published by or on behalf of parishes in the Archdiocese of New York for various parish anniversaries or other important dates. These books and pamphlets provide historical, pictorial, and other information about the formation and operation of the parishes. Because these documents were put out by each individual parish, there is no real standard for the information contained in each, but the folder titles should alert the user to purpose or parish event related to the item's publication. The collection is arranged by series, with each series representing a borough or county in the Archdiocese of New York. Items are arranged alphabetically by parish within each series, and then chronologically.

## Arrangement

---

The Parish History: Journals & Publications Collection is arranged in ten series: I: Manhattan; II: Bronx; III: Staten Island; IV: Dutchess County; V: Orange County; VI: Putnam County; VII: Rockland County; VIII: Sullivan County; IX: Ulster County; and X: Westchester County.

## Administrative Information

---

**Access and Use:** Collection is open to researchers at the Archives of the Archdiocese of New York. Advance appointments are required for the use of archival materials.

**Reproduction and Use:** Permission to reproduce any material in this collection not in the public domain must be obtained from the Archives and the copyright holder.

**Processing Note:** This collection is one that was created artificially by archives staff as a way to organize the numerous publications submitted by individual parishes to the Archives. As such, there was no inherent order to the collection; all order was imposed during processing.

**Related Materials:** Other materials related to Archdiocese of New York Parishes may be found in other parish history files (collections in the 011 record group), as well as materials related to financial and annual status reports in the Chancery Collection (021 record group).
