BUILDING SECURITY SYSTEM

KEEP AN EYE ON ALL OF YOUR PREMISES, EVEN WHEN YOU AREN'T THERE...

ICS offers a program for a closed-circuit building security system. We have secured premium pricing with two state-of-the-art telephone technology companies. Our relationship with these firms enables us to provide wholesale purchasing contracts along with comprehensive service agreements.

Our commitment to you as your equipment/systems partner includes arranging an initial consultation to thoroughly evaluate the needs of your organization. In addition, we will secure more than one bid for your consideration and ensure that the proposals are appropriately consistent with your building's requirements.

Contact The ICS Customer Care Team for any questions you may have and for assistance in evaluating your overall security requirements.

ICS COPIER PROGRAM

SHOULD YOU RENEW YOUR CURRENT CONTRACT, OR IS IT TIME FOR A NEW COPIER?

ICS offers a financing program for copiers and has secured premium pricing with major manufacturers of the equipment, which enables us to provide wholesale purchasing contracts with comprehensive service agreements. We represent all models of copiers made by the following top-tier companies:

o Canon Solutions America o Toshiba Business Solutions o Xerox Corporation
o Sharp Corporation o Konica Minolta o o OKI Kyocera o Ricoh Company Ltd.

We consult. Prior to the completion of your purchase, ICS will establish your true anticipated copier usage over the course of your term (three, four, or five years) and ascertain your typical copying needs.

We secure three bids. ICS provides three distinct proposals which include a set 'per copy' rate. This rate is based on the expected number of copies made (per month), which is determined during the initial consultation. Simply put, there can never be an added overage fee for copies in excess of a pre-determined amount and since the cost-per-copy is always the same, it is easy to manage your copying/printing budget.

You can own the equipment. ICS arranges **low interest** rates and, at the end of the term, you own the copier outright, with no additional fees to be paid. Our ownership policy differs from the industry-standard practice that allows contracts to automatically renew, generally with a cost increase, unless the customer notifies their current provider (during a specified window of time before expiration) that the equipment is to be returned.

Our commitment to service and support. The terms of our service contract include conditions that address the repair and/or replacement of all parts, labor, toner, and staples. As the copier is ultimately owned by you at the end of the contract, ICS is available to further consult on the best type of service contract for your copier going forward. With our expertise we will recommend a suitable, extended service agreement for the equipment – again, one tailored to your needs and most suitable for the machine you have (based on its condition, age, future use expectation, etc.).

Let us help you. Send us a copy of your current contract at least 150 days before its expiration date. We will review the terms of your contract and advise on your obligation (if any) going forward. We will also help effect the safe, legal return of the equipment should that be an option that you wish to pursue. In addition, ADNY's legal office reviews all non-ICS contracts to ensure that parishes, schools, and organizations are protected and comply with New York State law.

Let our successes be yours, too. Since ICS began this program in 2012, we have been able to reduce monthly payments and save participants on their new agreements. Contact us for a consultation on your next copier purchase.
