

RENEWING PARISH MUSIC

Are you wishing you could take the music in your parish “up a notch?” This webinar will walk through the steps needed to make this happen!

We’ll cover how to assess your current repertoire and resources, and how to plan strategies for improvement. Making changes to a parish’s musical repertoire requires thoughtful dialogue between pastors, music directors, choirs and congregations, taking into consideration the pastoral needs and musical history of the parish, while seeking to offer new and uplifting ways to glorify God and enthuse a congregation for sung worship. This seminar will cover the practicalities of this process, including potential roadblocks and ways around them. There will be time for questions, and handouts will be available after the meeting to reinforce your planning and action.

MONDAY, FEBRUARY 1 | 7:00 PM – 8:30 PM

THIS ONLINE SEMINAR will discuss the musical, pastoral and professional / interpersonal aspects of renewing a parish music program.
