New Life Retreat

In person and Live Stream

New Life is a peer ministry program that ministers to the unique needs of remarrying couples, which are much different than first time couples, by providing a new model for biblical marriage and preventing divorce. The specific issues that couples face in remarriage are significant and need to be addressed in programs unique to their needs. Remarried couples share their experiences about the dynamics of remarriage including blending families and gaining insights into themselves and their relationship. They connect with couples, in the spirit of fellowship and support experiential activities to rebuild and rediscover new relationships. To that point, topics common to all couples, such as conflict resolution and finances, take on a new perspective through the lens of remarriage. The principles covered in the program are universal in nature for any Christian denomination and based on current, evidenced-based research on remarriage. **New Life** satisfies (re) marriage prep requirements when working with a pastor or deacon.
